

# SMART VEHICLE IMPOUND SYSTEM

Smart service to impound vehicles within the owner premises under their care instead of leaving it at impounding yards.

# SMART VEHICLE IMPOUND SYSTEM

## Benefits

### Location

The possibility of impounding the vehicle at the location chosen by the owner and anywhere within UAE.

### Safety

The service allows the customers to take care of the vehicle at the impounding site and operate it to ensure its safety and to maintain it from long-term damage.

### Emergency

The vehicle may be moved in emergency cases only after getting the required approvals.

### Transactions

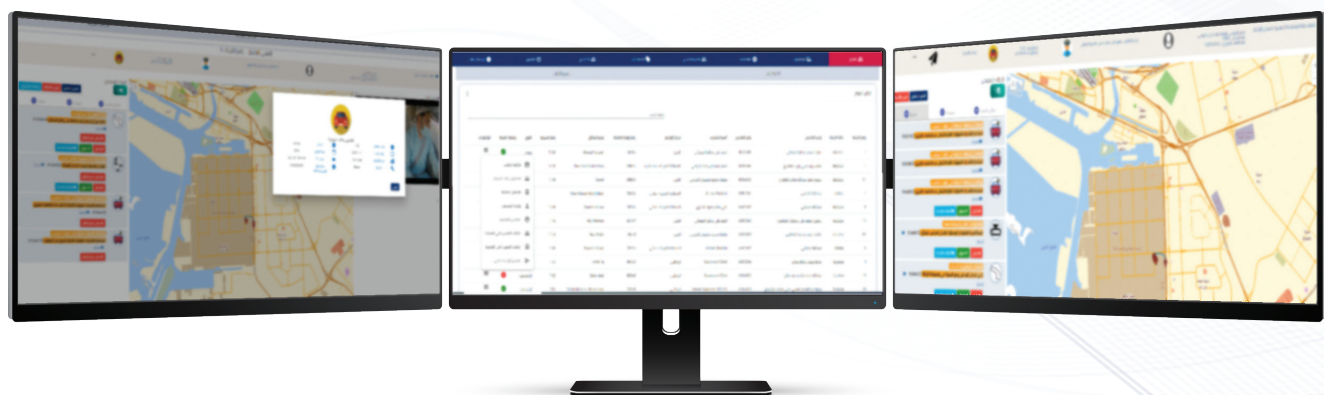

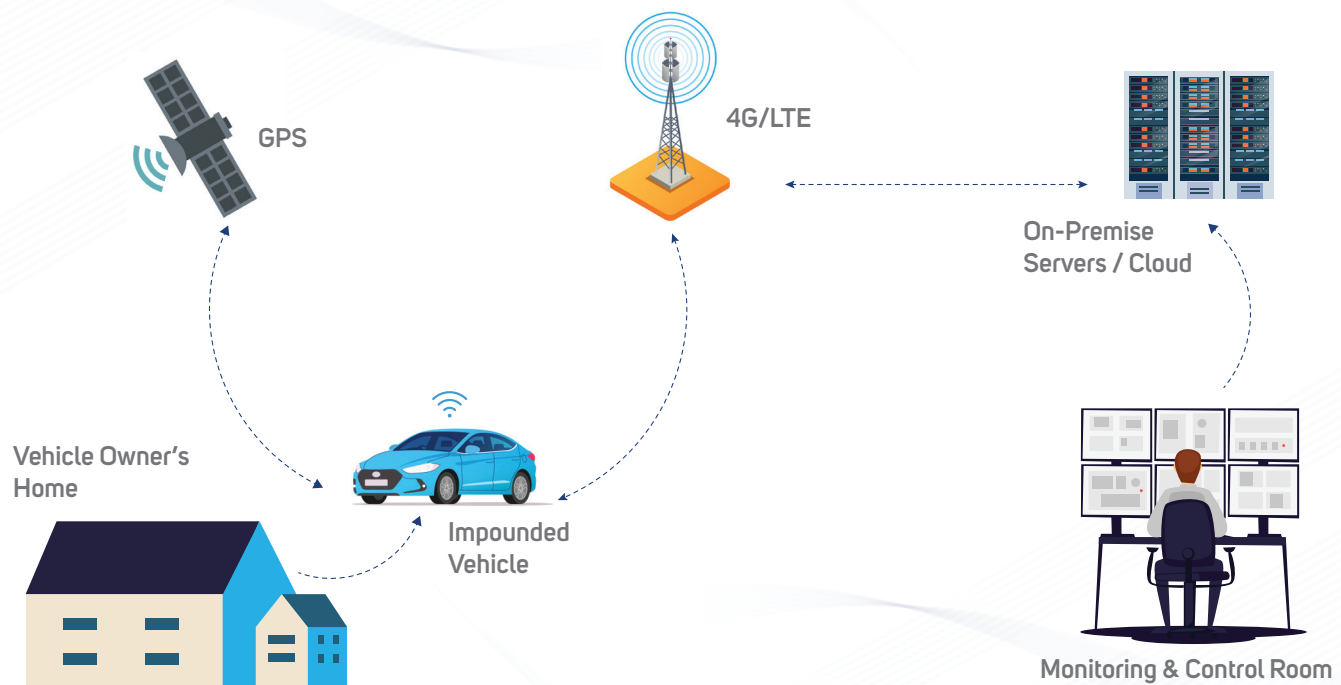

The possibility to complete all different traffic transactions during the smart impounding period for vehicles.

### Alerting

Alerting the customer by SMS before the end of the impounding period.

### 48 Hours

Giving the customers 48 hours to deliver the smart Impounding device after the end of the impounding period.
